Subject: NOAA Lies and lack of credibility

You guys just lost alllllllll your credibility, how sad. Do you see all the Facebook comments? How are you going to fix this and restore your credibility?

At the time Trump made his now famous tweet ALABAMA WAS NOT PREDICTED TO BE IMPACTED. Why would you lie and say it was? Why lose all your integrity?

I used to be the biggest supporter of NOAA, I will now vote and do anything I can to have you decided and shit down. Unless you want to retract your statement and grow a set of balls. Stop lying, NOAA is lower than dog shit right now.
